

contest. The club has some spienous man man and a number of equa-terial and new men are being developed ten of later. this year who will make the old timers hustle to keep the pace they set.

The wheelmen shown on the tandem are

the crack double team of the Cyclists, either on the track or the road, "Charley" Watson is mounted in front and the redoubtable "Freddie" Campbell, the deserving hero of a hundred races fought out to the tape, is on the back. Campbell has lately acquired the sobriquet of "Mysterious Freddie." In the season of 1835 he at the Grand next Friday evening, on made a great record on the Kansas cir- which occasion the members of the lead-

The Kansas City Cyclists, the oldest as well as the largest wheeling organization in Kansas City, will be represented both on the road and the track the coming senson by a number of fast men who will undoubtedly put the black and old gold first over the tape in many a hard fought contest. The club has some splendid material and new men are being developed.

To-day, in contrast to last Sunday, promises to be an ideal day for club road runs, and the various clubs will doubtless turn out well, as the roads are now in excellent shape. The macadam roads are in inst-rate condition, and the dirt roads are not lad. The Kansas City Cyclists are scheduled for a long run to Blue Springs, the round trip being forty-four miles, over a first-class road. The start will be made from the club house at 9 a. m. sharp. Dinsier will be taken at Blue Springs, the return trip being made in the afternoon after a good rest. Captain Warren and Lieutenants Boudin and Haynes assure all who wish to take this pleusant trip that no scorching will be tolerated, and that the ride will be at such a moderate pace as to make it enjoyable to all. If individual riders desire to search they can do so, but the officers will keep the club together as well as pose to accommodate the softest riders.

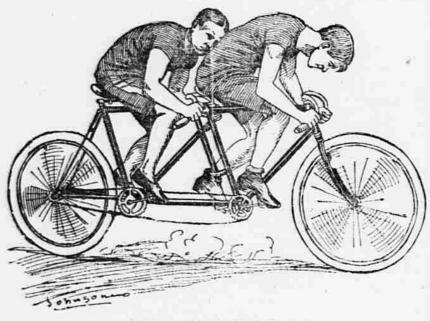

The run of the Pathfinders will be to In-To-day, in contrast to last Sunday, prom-

riders.

The run of the Pathfinders will be to Indian creek, a distance for the round trip of twenty-two miles, over a splendid road, macadam all the way. The start will be made from the club house at 2:15 p. m.

The Star Cyclists are booked for a run to Hickman's Mills, the round trip being thirty miles. The Stars as usual will make the run in two divisions, the slower riders starting at 9 a. m. and the fast men leaving the club house at 10 a. m.

One of the most interesting events of the near future in cycling circles is the semi-annual Jackson county tour of the Kansas City Cyclists, which will be made on May 15 and 16, Saturday and Sunday. This tour will be started at 1 p. m. on Saturday, May 15, from the club house at Fifteenth and Charlotte, and the ride for Saturday afternoon will be via Independence, Salem Church, Buckner and Levasy to Oak Grove, a distance of thirty-seven miles, where the tourists will spend the night! Leaving Oak Grove Sunday morning at 8 a. m., the trip will be via Sni Mills and Lone Jack to Lee's Summit, where dinner will be taken, and then on to Kansas City in the afternoon, the total distance being eighty-three miles. These trips have always been greatly enjoyed by those who have been so fortunate as to participate in them, and this one bids fair to be the most enjoyable of the series. The prospects are that not less than lifty wheelmen will make the tour.

WATSON AND CAMPBELL. Crack Tandem Team of the Kansas City Cyclists.

"Ted" Armstrong also came into prominence as a rider in the summer and fall of 1896. He made his bow to the public at Fairmount park last fall and was at on labeled "dangerous." He is a powerfully built, ethletic young man and will be found a tough customer to tackle over a dis-

D. D. Dunkin, one of the best road riders of the Kansas City Cyclists, makes his

that rate. The other three men, Weldner, Laing and Howard, are members of the St. Louis Cycling Club. They have no love for Eddie Grath. When Harding jumped to the professional ranks the young flyers of the Cycling Club took up the feud. They now propose to show Mr. Grath that he don't know anything about riding a hisyele.

A curious use of the wheel took place at Durham England, lately, and shows the use of a bleycle to police and others. A limatic escaped from an asylum, and, having arried himself with a revolver and cartridges, began some all-round firing in the busiest thoroughfare of the town. No harm resulted until the police appeared, when Serseant Enger was seriously wounded. The lunatic then retired, reloading the revolver. An inspector and constable went in pursuit, but there seemed little chance of effecting his arrest without danger of being shot. At this moment a young cyclist came around the corner, and, taking in the position of affairs at a plance, bent his body over the handles and, applying all his strength, went for the fugitive with all his might. The collision must have been a terrine one, as when the maniae was secured the young bleyellst was pleked up in an unconscious condition, and his machine was in an irreparable heap.— New York Press. was in an irreparable heap.-

The lot of the German lady cyclist is not a happy one. Before she can ride in the streets she has to give an exhibition of

ALBERT LAITNER.

her skill, and prove her ability to the sat-isfaction of the police authorities. Having passed the test, she is served with an offi-cial document which declares her to be the rightful owner of the bicycle. The docu-ment must be carried with her whenever she goes out riding, and produced when called upon by the police. No wonder Ger-man girls prefer any recreation to cycling!

man girls prefer any recreation to cycling!

London Cyclist.

Dr. Conan Doyle, speaking of cycling, says: "When the spirits are low, when the day appears dark, when work becomes monotonous, when hope seems hardly worth having, just mount a bicycle and go and have a good spin down the road, without thought of anything but the ride you are taking."

An easy way to determine the gear of any wheel, says Wheel Talk, is by the use of the following table. The first column shows the number of teeth on large sprocket, the second, the number on small sprocket. The other four columns show the gear of each machine where the drive wheel is of different diameters. To determine the gear, simply multiply the number of teeth on the large sprocket by the diameter of the drive wheel, and divide this by the number of teeth on small sprocket. For example. The number of teeth on the large sprocket is 17. The diameter of the wheel is 28 inches. Multiplying 17 by 28 we have 476. Dividing this by 7, the number of teeth on small sprocket, we have 68, he gear of wheel. By this method any novice can easily determine the sear of his wheel:

No. Teeth in Wheel	Diameter of Driving Wheel.			
	24	26	28	30

Dr. Coulter of the Chicago University, Gives Kansas City Teachers a Few Pointers.

stitute at the Central high school yesterday morning. He discussed at length the proper courses of study for high schools and colleges. He advocated strongly "more practical work and less theory" in the high schools and criticised several of the methods in vogue in many high schools of teaching science without illustrating apparatus. He said that at present there is a railical change going on in the educational world, and that soon the "transition" period in the history of education will have possed away. sessed away. Superintendent J. M. Greenwood delivered

Superintendent J. M. Greenwood delivered an address on the "Dead Lines in Education." He cautioned the teachers about getting into "ruts." or going to the other extreme and meddling with things which do not come under their jurisdiction.

A feature of the meeting was a recitation in spelling by Miss Aker's class, of the Webster school. The class is composed of boys and girls not over 7 years old, of foreign birth, who a few months ago could not speak the English language. With remarkable success Miss Aker has trained the children until they can spell difficult words with rapidity and correctness. She gave out 500 words to the class so rapidly that many of the other teachers could scarcely spell the words themselves in the time, and only four mistakes were made by the class.

WILL BE A MODEL BRIDGE.

All the ralls on the Prospect avenue line tablished the new readbed will be built. The contract for the bridge over the Belt railway will be let as soon as the city enrailway will be let as soon as the city en-gineer approves the plans for the bridge. The new bridge will be the finest crossing over the Belt line. It will be eighty feet wide spanning the whole right-of-way, and will be railed off from the roadway and foot walks will be built on the sides for pedestrians. The plans for the bridge were made by the architect of the Metropolitan Streat Pullway Commission. Street Railway Company.

ROADBED IS READY.

Wyandotte Street Electric Construction Just About the Quickest on Record.

The roadbed of the Wyandotte street electric railway was practically completed last night. Work on the new road was becun the latter part of March. It is one of

LEMEN BROS.' MENAGERIE. The Most Complete Zoological Collection.

A circus, no matter if it was Lemen Brothers' World's Monster Shows, would not be complete without a menageric, and no one knew this better than the Lemen Ercthers when they spent many dollars, Brothers when they spent many dollars, depleting the jungles and forests for beasts rare and ferocious, strange and beautiful, to people their vast menagerie, which is connected with their Monster Three-Ring Circus and Roman Hippedrome. Will be seen at Kansas City on Monday and Tuesday, May 3 and 4, Cage upon cage, and rows of them, illied with every strange and actini beast known to the zoographer. Chief among the amphibbous, carniverous, bi-borned, split-hoofed mammals is the terrible Bavalapus. There are elephants, camels, dromedaries, deer, bears, lions, tigers, leopards, grizzlies, serpents, reptiles, and in a word, birds and beasts of every kind. There are also, in a very attractive part of the menagerie, four little baby lions; and in the unique department, amidst many marvels—too many to name in detail—a giant camel, the tallest animal alive, hajah, the giant elephant, the biggest brute that walks the earth, the very lord of beasts; taller and weighs more than the world-famous Jumbo.

One of the most interesting events of the

cuit, scooping in everything in sight after ing clubs are expected to turn out in full cuit, scooping in everything in sight after
Joe Hocker got through, and putting some
fast miles and half miles to his credit. He
has been seen in a number of races at
Kansas City meets and has always made
a good showing. He is manager for the
Aladdin Cycle Company and is one of the
most popular young men in the business.
His riding partner, "Charley" Watson, is
a repair man and is known as a strong
and threless road rider.

"Ted" Armstrong also came into promi-

and strong. The other clubs are also arranging for a big turnout.

Accidents to wheelmen seem to be unusually numerous this spring. During the past week two well known club men had narrow escapes from serious injuries and they may congratulate themselves that they got off as lightly as they did. Con Robenschied, one of the crack men of the Stars, had an ugly fall at Eighteenth and Wabash from striking a big stone which had carelessly been lett in the road. He was thrown violently and badly cut about the head and shoulders, but his mignica are not considered serious. Joe Jordan, of the Kansas City Cyclists, had an almost miraculous escape from death last Thursday. He was riding on Main street, close to a cable train, when the driver of an express wagon pulled his team over suddenly, forcing Jordan to quickly change his course, which threw him right between the grip car and the couch. He fell off and let his wheel go under the car and was not hurt. The wheel was badly twisted.

Mr. Ira C. Hubbell, a veteran wheelman of Kansas City, contributes to the L. A. W. Bulletin the following communication, which contains a good suggestion:

"I spent a humber of years on the plains of Kansas, in the mountains of Colorade, and clawhere in the West, where the penalty for horse stealing was usually death, not through the regular course of the terriform, state or United States laws, but under the counsel of that distinguished jurist, Judge Lynch," The time will come, probably, when all people will do right because it is right. Let us hasten the coming of this day by assisting all we can in bringing to the evil door the crop of his seed-sowing.

"As a member of the L. A. W., of several years' standing, I shall be perfectly willing."

ing to the evil doer the crop of his seensowing.

"As a member of the L. A. W., of several
years standing, I shall be perfectly willing
to contribute annually a per capita tax of
25 cents, 50 cents, or 31, and perhaps more,
if necessary, in order to establish a fund
which shall be used through the L. A. W.,
for the purpose of keeping a fixed and
standing reward for the arreet and convetion of those who steal bisycles belonging
to members of the L. A. W. Such a rund
would be, in my sense, a standing mennce and do more, probably, to insure bicycles than any insurance scheme of which
I have knowledge."

Mrs. Sh

H. Banks. place, St. Louis.
